REUSABLE ELECTRODES

FIAB reusable electrodes include many different silicone models along with sythetic buckskin coupled with a special carbon conductive material. A wide range of conductive band electrodes (elastic, cloth, silicone and buckskin coupled) is also available.

PG1040C2/UNI	pair of conductive gloves, double snaps, one size		

GROUNDING ELECTRODES

ref.	description	picture
PG940/28	anti-static bracelet, snap, length 28cm	
PG941/28	anti-static bracelet, carbon cloth coupled with synthetic buckskin, snap, length 28 cm	
PG942/28	elastic bracelet, snap, length 28cm	
F9024SSC	reusable grounding clamp electrode silver silver/chloride sensor, for adult	
F7805P	disposable grounding pads, for adult, solid gel, FOAM support, 202x101mm, tab connection	

CONNECTING CABLES

The range of connecting cables is very wide and includes both unipolar and bipolar models. Connecting cables are available with different connectors (snap, socket, plug ...), in multiple lengths and in different colours. The Sales office is available to identify the cable model that meets the customer's needs.

GEL AND CREAMS

GEL range includes models specifically intended for ultrasound, IPL, radiofrequency and EEG/EMG; dispensers are available separately as spare parts.
